

# PATIO CLEANING 101

Instructions for cleaning of your personal patio:

**Step 1:** Fill a bucket with warm soapy water;

**Step 2:** Wet your cleaning utensil (*ie* rag, mop, etc.) with the soapy water;

**Step 3:** Scrub down your patio and rinse your cleaning utensil periodically in the bucket of warm soapy water;

**Step 4:** Once you have cleaned half your patio or cleaned the whole patio once, empty your bucket of water into your bathtub and refill your bucket with fresh, soapy, warm water;

**Step 5:** Repeat steps 2 and 3 by cleaning the second half of your patio or washing the entire patio one more time;

**Step 6:** Empty your bucket of water into your bathtub;

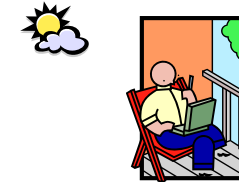

**Step 7:** Clean/rinse your bathtub of patio dirt residue; and

**Step 8:** Enjoy your clean patio.

Your downstairs neighbours thank you for not excessively splashing water over the edge of your patio and for not pouring water down the patio drain.

**The drain in your patio is for rainwater only and is not intended for dumping any other liquids.**

If complaints of excessive splashing or liquid being poured through patio drains continue, your Strata Council will have no choice but to pass by-laws on patio cleaning (*ie* monetary penalties or restrictions on the time of year everyone will be allowed to clean their patio).

*Thank you for your future co-operation!*
